CORRECT USE OF BLACK IN PROCESS COLOR ON NEWSPRINT: When preparing a COLOR ad ALWAYS start with a CMYK document. DO NOT start with an RGB document. BLACK TEXT created in RGB separates into tints of Cyan, Magenta, Yellow and Black instead of strictly 100% Black. This makes black type difficult to register and will appear blurry. Do not use RICH BLACK for text or headlines (black generated with CMYK tint builds). Do not use REGISTRATION BLACK for text or headlines. Use ONLY 100% Black. AVOID BLACK WHEN MIXING COLORS (background colors as well as colors used for text) Black is the last ink to print on newsprint and therefore makes colors appear muddy. For best printing results, create your color palette using ONLY Cyan, Magenta and Yellow.

Holocaust Museum Exceeds Fundraising Goal, Sets New Mark

The U.S. Holocaust Memorial Museum is marking its 35th anniversary with a new—and bold—$1 billion fundraising goal.

The “Never Again: What You Do Matters” campaign set out five years ago to raise $540 million by the museum’s 25th anniversary. The campaign reached that goal 18 months ahead of schedule and has now brought in $715 million from 366,000 donors, officials said. The Washington museum announced Monday evening that it would increase its goal to $1 billion by 2023, its 40th year.

“We see that we have all this momentum that we really want to seize,” museum director Sara J. Blumfield said. “We thought it was important to send a message to the survivor generation that we will secure the museum.
